

UPDATE Now Available 880 and 882 Combo Kits with both 3/4" and 1" clamps
Less inventory... 1 part number covers 3/4" and 1" hose.

Model 880 Retractor is designed to retract 12'-14' of 5/8" and 3/4" conventional hose.

Model 882 Retractor is designed to retract 18' of 1" conventional hose.

Keeping the hose off the ground helps prevent tripping hazards and increases the life of the hose from wear and tear caused by dragging the hose across the ground.

Both models are available with clam shell hose clamps that fully swivel preventing the retractor cable from twisting and binding.

Models also available for EV chargers.

Part Number - 880/882

Optional Hose Clamp

880 and 882 -CS

Available with 3/4" and 1" Hose Clamps

Models:

880-CS34/10 (880 + 3/4" & 1" Hose Clamp)

882-CS34/10 (882 + 3/4" & 1" Hose Clamp)
