FOR IMMEDIATE RELEASE

## Universal Valve Co. Celebrates 85 Year Anniversary

(Elizabeth, NJ) April 2017 – Universal Valve Co. is commemorating its 85<sup>th</sup> anniversary in 2017. The company is celebrating 85 years of manufacturing innovative products for the service station industry. The company was founded on the motto “Quality and Reliability”. These traits still hold true with Universal today.

Universal Valve Co. was founded in 1932 by Joseph V. Milo and August Milo when they originated the union check valve, the 200A. From this one valve the line expanded to include the over 2000 products offered today.

Look for Universal’s continued commitment to bringing their complete line of quality engineered valves, fittings, manholes, air towers, pipe guards, bollards, island forms, and spill containers to the service station industry. Be sure to check out Universal’s new composite manholes as well as their new digital air towers releasing later this year.

Universal’s President Martin Pettesch says on the 85<sup>th</sup> anniversary, “It’s an exciting time in our company, so many generations of employees and customers along the way helped get Universal to where it is today. 85 years is something we are very proud of and look forward to many more wonderful years of great business together.”
